

## Our Commitment to the Environment

Island Diversified's commitment to environmental awareness and preservation is reflected throughout our business. We strive to work with environmentally-friendly products that, by their nature, will contribute to a building project's LEED rating:

### **Lime-Based Plasters (from various manufacturers)**

- Emit no or very low VOCs  
*[Indoor Environmental Quality, Credit 4.2 for Low-Emitting Materials]*
- Are vapor-permeable, thus allowing substrates to breathe
- Do not support flame, and do not give off toxic gas when exposed to flame
- Material's natural alkalinity will not support the growth of mold

### **Acoustical plaster systems (from various manufacturers)**

- Emit no or very low VOCs  
*[Indoor Environmental Quality, Credit 4.2 for Low-Emitting Materials]*
- System components made from recycled content  
*[Materials & Resources, Credit 4.2 for Recycled Content]*
- Helps to optimize energy performance with a light reflectivity rating  
*[Energy & Atmosphere, Credit 1 for Optimized Energy Performance]*
- For school projects – controls reverberation within classrooms  
*[Indoor Environmental Quality, Prerequisite 3, for Minimum Acoustic Performance]*

### **EIFS: Exterior Insulating Finish Systems (from various manufacturers)**

- Provides excellent insulating value  
*[Energy & Atmosphere, Credit 1 for Optimized Energy Performance]*

Furthermore, we are committed to conducting business in a manner that manages environmental issues responsibly. We fulfill this commitment by:

- Complying with environmental regulations
- Conducting operations in an environmentally sound manner
- Applying the principles of reduce, reuse and recycle in all processes
- Promoting environmental responsibility among our employees
- Striving to utilize environmentally-conscience suppliers
- Pursuing continuous improvement in our environmental performance
